

FESTIVAL PROGRAM
JUNE 19, 2021
ARMS PARK MANCHESTER, NH

WELCOME TO YOUR PRIDE FESTIVAL

On behalf of Queen City Pride, welcome to our 3rd Annual Pride Festival! Today we celebrate the LGBTQ+ community in Manchester and throughout the Granite State. Beginning in 2018, the City of Manchester officially recognized June as Pride month. It was a momentous occasion in embracing and recognizing the community's contributions to Manchester and, a step in building awareness on the challenges and struggles that have been and are still being endured.

This year, we've focused our efforts on increasing education, awareness, and inclusivity for the youth population and transgender community. Many of whom have been cast aside, embarrassed, and stripped of rights more than the other members of our queer community. We must recognize the daily struggles they continue to endure and be there to support them. Ask them if they want a HUG. Ask them to tell you their story, if they are comfortable doing so. Learn. Share. Show compassion. Be willing to take time today and connect with at least one other person you may not know. We are all ready to get out as the pandemic winds down. Let's celebrate the opportunity to be together today!

It is also important to recognize that today, June 19th is an important holiday – Juneteenth. A celebration of the black community and culture that we are blessed to have around us. Juneteenth and Pride are times to recognize and celebrate the contributions these underserved populations have contributed to society and our daily life. While also acknowledging that there is much more work required to achieve equity for black and queer people. Today, we celebrate with each other. We support and encourage attendance at the Juneteenth celebration here in Manchester and at other events across the country.

Please enjoy today's entertainment, community sponsors, drinks, food and kinship
